

# Make the right hires faster with **AI Interviewer**

Bring an AI Interviewer on to your hiring team to save time, increase capacity, and drive a fair process your candidates will love.

## Save recruiter & interviewer time

Automate your screens with AI-driven conversations that assess key skills and empower hiring managers to have better, more informed conversations.

## Scale recruiting capacity

Cast a wide net and reduce recruiter workload by automatically screening all of your applicants, then make data-driven decisions about who to progress with reporting that offers deep skill insights.

## Deliver a rich candidate experience

Create a realistic, fair interview experience with customized questions and role plays tailored to real work scenarios, giving candidates a job-relevant assessment that reflects your unique hiring process.

## Target roles

- Account Executive
- Account Manager
- Customer Success Manager
